WELCOME TO THE SPRUILL CENTER

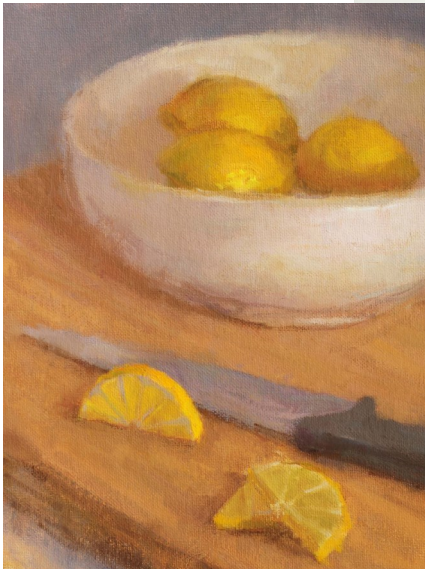

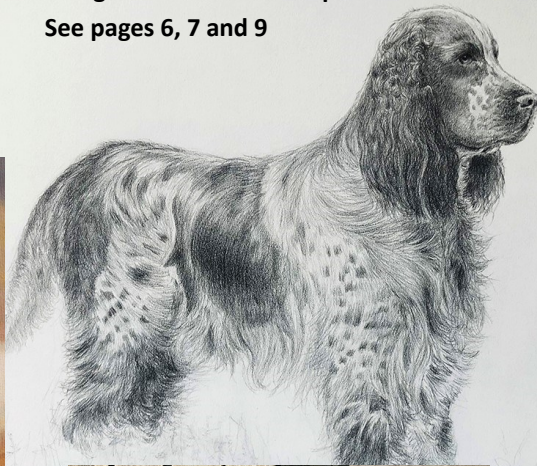

We are excited to welcome students into our space starting January 2024!

Our new 8,300 square foot building will host 2 new ceramic studios, 2 new drawing/painting/mixed media rooms, a new mosaics & stained glass room, a new blacksmithing studio, a woodturning studio and a new community room to host visiting artists and special workshops.

What's more, the pathway from the back of the library parking lot to the building will now be a paved ramp (no more stairs!) making it easier to bring a rolling cart of supplies into the building.

HANDBUILDING FOR EVERYONE

Recommended as a Student's first ceramics course, though more advanced students are also welcome. The thing about clay is, you can turn it into almost anything with just your hands and a few simple tools. We will explore the many techniques available to create, decorate and fire work that is "you". Functional to sculptural; the sublime to the ridiculous. Whether you are new to clay or an experienced professional, it is all possible and Carol will show you how. See spruillarts.org for additional details regarding supplies.

INTUITIVE APPROACH TO HANDBUILDING - ALL LEVELS

A class environment where you, beginner or pro, have the opportunity to explore your own creativity. We often expect to be told what to do, but the secret is: The best stuff resides within yourself. My job is to guide you, show you the unlimited possibilities and offer the technical skills to make it happen. We will use the word "Yes" throughout the class. Yes, we will do the usual handbuilding methods: coil, pinch, slab, etc., including raku, and yes, we will chart our own course while doing so. See spruillarts.org for additional details regarding supplies.

COMMUNITY PROGRAMS

CREATIVE CONNECTIONS: A DEMENTIA-FRIENDLY ART PROGRAM

Creative Connections is a weekly program designed to engage individuals with or without dementia and their care partners in the arts. The program promotes creative self-expression, communication and enhancement of self-esteem. Each class will focus on the art experience and the process of making art as opposed to the finished product. Group discussions will be led by the instructor.

NOTE TO CARE PROVIDERS: When registering your participant for this course please provide your contact information (i.e. phone number and email address). Questions? Call our registration office at 770.394.3447, x 0

CREATIVE WRITING

NOVEL AND SHORT STORY WRITING

Join other students in a lively class guaranteed to get you started off right. Characterization, plotting, voice, marketing and other topics writers need to know about will be discussed in depth. This class is designed to help unpublished writers take that next step-to publishing. Many authors have taken Knight's classes and gone on to publish, including some who have become New York Times bestselling authors. This is a writing intense class with in-class assignments and homework assignments that will help to clarify the murky waters of writing to publish.

Students will need to bring either a notebook and pen or a laptop or tablet to take notes during each class.

CREATIVE DRAWING: EXPLORE THE POSSIBILITIES OF GRAPHITE, CHARCOAL, AND INK **NEW!**

According to Noah Webster, Drawing, essentially a technique where an instrument is used to mark paper or another two-dimensional surface in which images are depicted on a surface by making lines, tonal areas, washes and other non-linear marks. Instruments used might be pencils, Neo Color Crayons, pens with inks, brushes with paints, or any combination. Through the projects we will work on in class, we'll examine the unique benefits each tool provides to better understand its use in both solo works and in concert with any of the myriad of others available --- And the fun part is all the while students (Beginners &/or Experienced) develop the skills they will need & use through their artistic career.

Drawing is a visual art that uses an instrument to mark paper or another two-dimensional surface. The instruments varied & over time we will learn much about each of them and the magic they bring to otherwise unadorned surfaces.

PASTELS AND OILS WITH MARGARET DYER

We will work with live models, still-lives, florals and photos. We'll explore drawing, composition, anatomy, proportion, value, perspective and color. Using a step-by-step method in both oils and pastels, you'll see how easily you can tackle complicated subjects.

Be prepared to paint (or pastel) in every class.

You will be sent a schedule by email before class begins. On days we have a model, we will spend the first half hour doing gesture drawing on newsprint, so bring an 18x24 newsprint pad, vine or compressed charcoal and money to pay model fee (approximately \$10, depending on number of student in class that day). The rest of that class period we will paint the long pose, working with your choice of oils or pastels.

TOOLS & TECHNIQUES: EVERYTHING YOU NEED TO START DRAWING

KNOWLEDGE IS POWER! So many have told me they won't draw because it's just too hard. And many others feel the hardest part of "getting into drawing" is deciding what to draw, how to draw 'it', with what tools &/or surfaces? Then the issues of figural & facial proportions, perspective & vanishing points, chiaroscuro, composition, focus points, surface preparation and of course for portrait artists: facial planes, hands & drawing hair. Day two will include & may well focus on areas important to the students!

We will look at all the above in as much depth as time allows to ensure you achieve a comfort level with the concepts and tools. There is a basic class supply list, you should bring those to 1st class & we'll review them and more.

Remember, Drawing can & should be more about the experience ('the journey') than the results & the best tools are ones that encourage you to stay loose and limit self judgment whenever possible. Using different or slightly better materials will make what you're doing intentional and help you focus.

A Materials Fee of \$13 (includes 1 class model fee) is PAYABLE TO THE INSTRUCTOR at the first class.

BEGINNING GLASS BEADMAKING

This course is an introduction to glass beadmaking using flameworking techniques on an oxygen/propane torch. Each class will start with a lecture/demo and then the students will work hands-on to practice making beads. We will start by covering torch and beadmaking basics. We will then explore various beginning techniques including controlling bead shape, making and using stringers, applying surface treatments and the myriad of way to use dots. We use soft glass in the class (COE 104). Glass will be available for purchase in the classroom - actual cost will depend on the number of beads made and the average cost runs \$15 to \$30 per quarter. The class is held in a studio setting with other beginner students. Students should wear natural fiber clothing with long sleeves and must be 18 or older. This class is not for pregnant women.

SCREEN PRINTING ON GLASS

NEW!

Add imagery to your glass art pieces with screen printing. Open a new world of creative possibilities with your screened images on glass, stained and fused glass works.

You will need to bring your own pictures taken by you or royalty free images. Instructor will also provide some images if you don't have any you want to use.

Working with light sensitive material makes it possible to screen print images on glass, whether it be stained glass, fused glass, mosaic or any other glass surface. This is a cutting edge approach to permanently printing "fired on" images.

By the end of the session, you will have several pieces to take home. For those interested in continuing this process at home, you will have the option to purchase your own screen and supplies.

INTERMEDIATE/CONTINUING GLASS BEADMAKING - VIRTUAL EDITION

Join us for a virtual version of Intermediate/Continuing Glass Beadmaking.

This class is open to those with prior beadmaking experience and access to flameworking equipment. No studio time will be provided in connection with this class.

This class will be held via Zoom at the same time the in-person class is being held at Spruill, and will consist of discussions and a live-streamed demo. After the demo, the Zoom portion of the class will be ended and virtual students will work on the project in their own studios. Students will be requested to submit photos of the work they do during the week, and in succeeding classes we will begin with sharing those photos and discussing any questions or problems students may have come across, discoveries they made, and directions they may have taken inspired by the demo. Discussion will then be followed by the current week's demo.

This Class meets virtually. Class sessions will be recorded and available for you to review after each meeting. Students must have taken a class with this instructor or have instructor's approval prior to registration.

FUSED GLASS 3D FLOWERS

Want to create a flower that never dies and looks beautiful all year round? Join us in creating 2 three-dimensional fused glass flowers to add to any vase or container. This workshop will be completed in 2 sessions. In the first session, you will cut and arrange the pieces of glass needed to make the flowers. They will then be fused and slumped for the second session where you will be assembling them. Choose from a poppy, hibiscus, daffodil, lily or daisy to create.

Previous fusing or stained glass experience is helpful but not required.

Feel free to bring your own gloves for working with the glass.

IMPORTANT: Do NOT wear sandals or open-toed shoes to this workshop. Shoes that cover and protect your feet are a must.

JEWELRY & METALSMITHING

ALL LEVEL METAL CLAY: INTERLOCKING PENDANTS

This is a fun and exciting class for a beginner to develop good metal clay skills as well as the advanced student in the challenge of their design. This interlocking pendant class will have students designing and creating two part pendants. The pendant will be the focal point as well as the functional front closure of the jewelry piece. This class will have an emphasis on helping the student develop good solid construction techniques, designing a proper and functional frontal closure while having a strong emphasis on creative design. The class will also cover some fun ways in clay handling, fireable gemstone settings and finishing techniques appropriate for the individual pieces being made. This is a great class for all levels. It does not include any metal clay products, or embellishing fireable gems.

We will be working in Art Clay 950 sterling or AC fine silver (student choice).

BEGINNING GLASS BEADMAKING

This course is an introduction to glass beadmaking using flameworking techniques on an oxygen/propane torch. Each class will start with a lecture/demo and then the students will work hands-on to practice making beads. We will start by covering torch and beadmaking basics. We will then explore various beginning techniques including controlling bead shape, making and using stringers, applying surface treatments and the myriad of way to use dots. We use soft glass in the class (COE 104). Glass will be available for purchase in the classroom - actual cost will depend on the number of beads made and the average cost runs \$15 to \$30 per quarter. The class is held in a studio setting with other beginner students. Students should wear natural fiber clothing with long sleeves and must be 18 or older. This class is not for pregnant women.

BEYOND BEGINNING: INTERMEDIATE JEWELRY AND METALSMITHING

In a fun and encouraging classroom, come build upon your foundational basic skills and discover the next level of intermediate design and fabrication. Instructor-guided projects and support will allow students to further fabrication and soldering skills and continue to develop craftsmanship, problem-solving skills and design. This class is an exciting "round-table" of techniques/projects/introductions: surface design (such as keum-boo, enameling, resin and reticulation), bezels and other settings for cabochons and faceted stones (such as tubsetting, step bezels, and non-round/oval stones), metal forming (such as mitered corners, shaping, hollow forms, forging, and the hydraulic press), construction options (such as cold-connections, mini torch, and piercing), and mechanisms (such as hinges, connections, and findings). Students will learn more about all jewelry forms, have more options and can determine their focus. The first class is generally when we meet as a group to discuss the quarterly projects, material options, and more! Techniques, projects and demonstrations vary each quarter. FYI-Joanne is still excitingly making, working, teaching and always learning about art jewelry for 25+ years. For more info and images, please visit www.joannehernandezmetals.com. INTERMEDIATE/CONTINUING GLASS BEADMAKING - VIRTUAL EDITION

Join us for a virtual version of Intermediate/Continuing Glass Beadmaking.

This class is open to those with prior beadmaking experience and access to flameworking equipment. No studio time will be provided in connection with this class.

This class will be held via Zoom at the same time the in-person class is being held at Spruill, and will consist of discussions and a live-streamed demo. After the demo, the Zoom portion of the class will be ended and virtual students will work on the project in their own studios. Students will be requested to submit photos of the work they do during the week, and in succeeding classes we will begin with sharing those photos and discussing any questions or problems students may have come across, discoveries they made, and directions they may have taken inspired by the demo. Discussion will then be followed by the current week's demo.

This Class meets virtually. Class sessions will be recorded and available for you to review after each meeting. Students must have taken a class with this instructor or have instructor's approval prior to registration.

JEWELRY DESIGN LAB

Hit a block in your jewelry designs? Feel like your designs are limp and missing that certain spark? Or maybe you just need a bit of idea focus or process jumpstart? This class is intended to help students with their jewelry design work using exercises, practicals, and projects to get their ideas flowing and focused. Per class interest, metalsmithing techniques will be demonstrated during class. The instructor will work with students individually on their design ideas- discussing process, techniques, and design elements. Students will have class time to work on their designs. There will be class discussions on design and the projects/exercises. Class participation in these discussions is a must! Students should bring a sketchbook, pencils, and ideas to the first class. **PREREQUISITE:** Five (5) Beginning and/or Beyond the Basics Jewelry and Metalsmithing classes at the Spruill Center for the Arts, or by permission of the instructor.

TRANSFORM YOUR SCRAP- CASTING AND ROLLING INGOTS

Come have an exciting time in the studio playing with fire and learning how to turn your clean sterling silver scrap into workable sheet and wire ready for your next jewelry project. Students will melt their sterling silver scrap, with added sterling silver casting grain, in a crucible and pour into both sheet and wire steel ingots molds. Then, students will roll and draw the ingots into a variety of gauges of sheet and profiles of wire. Saturday we will pour metal and start using the rolling mills. On Sunday we will finish rolling and then drawing wire, and the class time will be split into 2 groups of 4 students. There will be two sheet and two wire rolling mills in the classroom, as well as a drawplate bench. This class has a maximum of 8 students. NOTE: Rolling sheet and drawing wire is a continuous and strenuous activity, and students should take breaks as needed. PREREQUISITE: 3 Jewelry/Metalsmithing classes or permission of the instructor. See the Supply List at www.spruillarts.org for further information regarding preparing your scrap, casting grain cost and information needed for the workshop. LIGHT MY FIRE--MELTING AND WELDING STEEL

This focused hands on workshop will give you the chance to work with a torch and welder to learn the principles of manipulating metal. We'll cover safety, science, principles of melting metal, equipment, differences in metals and more. Each class is limited to 2 students so you'll have a torch or welder in hand and have a finished piece from each session. Two three hour sessions--first day is working with an oxy-acetylene torch for cutting and bending steel. The second day will be hands on with a MIG welder. NO EXPERIENCE REQUIRED - just the desire to learn. A Materials Fee of \$35 is PAYABLE TO THE INSTRUCTOR at the first session. This takes place at Kathy's home studio in Marietta, GA. Come play with FIRE!

CREATIVE OIL PAINTING for Adults

Learn basic, intermediate, and advanced oil painting techniques. This class is for students of all levels. The only rule in this class is to have fun and paint with oils. It is suggested that students be 18 or older but it's not mandatory.

There will be an interesting still life set up for every class or you can paint anything you want! There are no limits. Your subject matter should inspire you. Bring any type of reference material or paint from imagination. If you are using a photograph as a reference, please print it on paper before you come to class. The print should be color and large enough to see details. Bring masking tape to secure your photo to the easel. Also, you can use a tablet, if you don't care that it might get messy.

During the first class. We will discuss your goals and what your subject matter will be. I will observe everyone's skill level and we can work together with respect to your individual style.

Special attention will be provided to students that are new to oil painting. I will walk you through the process. You will learn about how to set up and use the materials. Oil painting is not as complicated as you think. I will break it down for you.

Students with experience will learn how to take their painting skills to the next level and jump over obstacles that might be holding them back. Each student will work at their own pace. I can provide helpful suggestions, and answer questions along the way. It's a relaxed vibe with no pressure. We have fun in Creative Oil Painting class.

You will:

- learn how to use oil paints and mediums
- how to create good composition
- enhance depth and contrast with the use of color
- learn how to interpret what you see
- brush stroke and pallet knife techniques
- mix colors effectively
- become inspired to make painting a full-time hobby or career

This is a class for artistic freedom. Everyone paints differently. We will work together and find the way that's best for you. After you gain confidence in your painting skills, you can focus on the fun ideas!

Important information:

Do NOT plan on using your smart phone to display your reference photo. That will only make painting more difficult for you. Wear old clothes, an apron, or coveralls. Paint gets everywhere.

PASTELS AND OILS WITH MARGARET DYER

We will work with live models, still-lives, florals and photos. We'll explore drawing, composition, anatomy, proportion, value, perspective and color. Using a step-by-step method in both oils and pastels, you'll see how easily you can tackle complicated subjects.

Be prepared to paint (or pastel) in every class.

You will be sent a schedule by email before class begins. On days we have a model, we will spend the first half hour doing gesture drawing on newsprint, so bring an 18x24 newsprint pad, vine or compressed charcoal and money to pay model fee (approximately \$10, depending on number of student in class that day). The rest of that class period we will paint the long pose, working with your choice of oils or pastels.

Learn the basic techniques of jewelry fabrication and metalsmithing by making pieces such as bracelets, pendants, and earrings. Students will learn techniques of soldering, cold-connections, wire-wrapping, and more! Step-by-step demonstrations and instructions will lay the foundation for the student to learn piercing with the jeweler's saw, finishing, and forming metal sheet and wire. Each project simultaneously builds jewelry making skills learned from the beginning of class to the last advanced project. Attendance is important! Metals, such as copper, brass, and a small amount of silver, as well as all necessary tools will be provided. For beginners the first class is MANDATORY. There will be NEW PROJECTS each quarter!!

All necessary materials and supplies are included in the \$50 Materials Fee and the \$15 Jewelry Lab Fee, which are PAYABLE WITH REGISTRATION.
